SIMONA PMC is a division of the SIMONA AMERICA GROUP

PERFORMANCE. SPECIALISTS. SOLUTIONS.

At SIMONA PMC, we are so much more than just TPO.

We produce ABS, decorative films, high-performance cap layers and all combinations in between. We believe in going beyond the products and doing more.

Performance - We produce highly engineered thermoformable sheet that will deliver the results you expect from your high-performance finished products. In addition to being ISO certified, we follow strict and extensive guidelines to ensure that our sheet products are of the highest quality and result in peak performance.

Specialists - We pride ourselves on our high-performance products and high-performance people. We believe that hiring the right employees and providing them with the right training so they can be the best in the industry is just as important as the products we sell. You can count on PMC to be your Go-To-Guys no matter what your needs are.

Solutions - Not only do we provide a wide range of products, we provide solutions, too. Our team of specialists will pinpoint the right product, work with you to tackle all your tough projects, and stay with you through any hurdles you may encounter along the way. We know the custom thermoforming industry is constantly changing, and so are we.

Through the growth of our manufacturing operations, and acquisition by world leading thermoplastics manufacturer SIMONA, we are proud to offer cutting-edge technologies and services to the markets we serve. We invite you to visit our facilities any time for a guided tour.

YOUR GO-TO-GUYS

Plastic made personal. A vertically integrated manufacturing partner specializing in custom extruded sheet and roll stock. This equals timeliness and efficiency for you. World class manufacturing, fast response times and creative solutions. Design, engineering and expert technical support... we do it all.

**That's the SIMONA PMC difference.
Experience it for yourself.**

CUSTOM EXTRUSION.

SIMONA PMC has the production capability to handle just about anything. We offer one of the country’s largest sheet extruders, a 120 layer sheet and roll stock extruder in our facility in Findlay, Ohio.

Our multiple extrusion lines provide optimal conditions for unique requirements and scheduling flexibility. We’re equipped to accomodate a variety of resins, as well as mono, co-ex and tri-layer extruded sheet roll or stock.
